Education

University of California, Los Angeles Sep 2024 – Mar 2026

Bachelor of Science, Statistics & Data Science — GPA 3.6

Relevant coursework: Linear Models, Monte Carlo Methods, Statistics in Finance, Geostatistics, Causality

Exams

SOA P Exam (Passed) January 2026

SOA FM Exam (Passed) August 2026

Experience

Minthril Sep 2026 – Present

Independent Consultant

- Provided part-time supply chain consulting services for a large manufacturing company
- Streamlined production plans with Microsoft Excel pivot tables, VBA macros, and dashboards, cutting processing time by 90%

Data Detectives Jun 2025 – Aug 2025

Data Analytics Intern

- Built automated Python pipelines to ingest, clean, validate, and transform Bay Area housing data from multiple sources, evaluating its suitability for predictive modeling
- Generated synthetic training datasets using the SDV library to augment model performance
- Trained and evaluated a random forest regression model to predict home values from the cleaned housing dataset

Awe & Reverence Jun 2023 – Aug 2023

Software Apprentice

- Built full-stack websites using React, MySQL, and other common tools
- Partnered directly with the founder to scope, build, and ship features on tight timelines

Rooted Software — Concord, CA (Hybrid) May 2022 – Aug 2022

Information Technology Intern

- Developed mobile applications using React Native for a church with 1,000+ members
- Configured hardware for a private K-8 school with 400+ students

Chick-fil-A — Walnut Creek, CA Mar 2022 – Aug 2022

Front of House

- Took and fulfilled orders for 100+ guests per shift
- Maintained accuracy and speed while managing multiple simultaneous orders during high-volume rush periods

Projects

City of Berkeley Budget Data — Analyzed several years of municipal budget data and built interactive Tableau dashboards that make spending easy to summarize, browse, and compare.

NBA Game Simulator — Built a Python pipeline that scrapes and structures real NBA player and team stats spanning the last 40 seasons to drive a dice-based basketball simulation, generating play-by-play logs and box scores for individual games and full seasons.

Quick Draw — Built a full-stack tournament bracket tool with Next.js, TypeScript, and Supabase, version-controlled on GitHub, to organize and run single-elimination, double-elimination, round robin, and swiss format competitions.

Skills

Skills: Python, R, SQL, Microsoft Excel (Pivot Tables, VBA), Word, Copilot, Statistical Analysis, Data Cleaning & Validation, Probability Theory, Git/GitHub, AI Fluency
