EDUCATION

University of California, Los Angeles

Sep 2024 – Mar 2026

Bachelor of Science, Statistics & Data Science — GPA 3.6

Relevant coursework: Linear Models, Monte Carlo Methods, Statistics in Finance, Geostatistics, Causality

EXAMS

SOA P Exam (Passed)

January 2026

SOA FM Exam (Passed)

August 2026

EXPERIENCE

Data Detectives — Remote

Jun 2025 – Aug 2025

Data Analytics Intern

- Designed and built automated ETL pipelines in Python to ingest, clean, validate, and transform Bay Area housing data from multiple sources for predictive modeling
- Implemented data quality and enrichment processes, generating synthetic training datasets using the SDV library to augment model performance
- Delivered a modeling-ready dataset that directly powered the team's predictive housing valuation model

Awe & Reverence — Remote

Jun 2023 – Aug 2023

Software Apprentice

- Built full-stack websites using React, MySQL, and other common tools
- Partnered directly with the founder to scope, build, and ship features on tight timelines

Rooted Software — Concord, CA (Hybrid)

May 2022 – Aug 2022

Information Technology Intern

- Developed mobile applications using React Native for a church with 1,000+ members
- Configured hardware for a private K-8 school with 400+ students

Chick-fil-A — Walnut Creek, CA

Mar 2022 – Aug 2022

Front of House

- Took and fulfilled orders for 100+ guests per shift
- Demonstrated leadership and communication in a professional environment
- Maintained accuracy and speed while managing multiple simultaneous orders during high-volume rush periods

PROJECTS

City of Berkeley Budget Data — Built a set of interactive Tableau dashboards visualizing the City of Berkeley's municipal budget from 2012–2015, making several years of civic spending data easy to browse and compare.

NBA Game Simulator — Built a Python pipeline that scrapes real NBA player and team stats spanning the last 40 seasons to drive a dice-based basketball game simulation, capable of simulating both individual games and full seasons with play-by-play logs and final box scores.

SKILLS

Skills: Probability Theory, Microsoft Excel, R, Data Analysis, SQL, Python, AI Fluency
