Education

University of California, Los Angeles Sep 2024 – Mar 2026

Bachelor of Science, Statistics & Data Science — GPA 3.6

Relevant coursework: Linear Models, Statistical Models and Data Mining, Design and Analysis of Experiments, Monte Carlo Methods, Causality

Exams

SOA P Exam (Passed) January 2026

SOA FM Exam (Passed) August 2026

Selected Experience

Minthril Sep 2026 – Present

Independent Consultant (part-time, 10 hrs/week)

- **Problem:** A large manufacturing company's production plans were time-consuming to process
- **Solution:** Streamlined the process with Microsoft Excel pivot tables, VBA macros, and dashboards
- **Impact:** Cut processing time by 90%

Bay Area Home Price Model Began Jun 2025

Data Detectives internship project, continued afterward

- **Problem:** Bay Area housing data came from multiple sources and had to be cleaned and validated before it could support price prediction
- **Solution:** Built automated Python pipelines to ingest, clean, validate, and transform the data, then developed a predictive model using 9,000+ homes and 18 features
- **Impact:** The model explains more than 87% of the variance in home prices in select Bay Area cities

City of Berkeley Budget Data Project

Interactive Tableau dashboards on 2012–2015 municipal budget data

- **Problem:** Over 47,000 rows of municipal budget data were hard to browse and compare
- **Solution:** Built interactive Tableau dashboards that organize the data for a general audience
- **Impact:** Condensed the data into 7 simple dashboards, making spending easy to browse and compare

Earlier Experience

Awe & Reverence, Software Apprentice (Jun–Aug 2023); **Rooted Software**, Information Technology Intern, Concord, CA (May–Aug 2022); **Chick-fil-A**, Front of House, Walnut Creek, CA (Mar–Aug 2022)

Skills

Skills: Python, SQL, R, Microsoft Excel (Pivot Tables, VBA), Tableau, ETL Pipelines, Data Cleaning & Validation, Statistical Analysis, Data Visualization, MySQL, Git/GitHub, AI Fluency
