Education

University of California, Los Angeles Sep 2024 – Mar 2026

Bachelor of Science, Statistics & Data Science — GPA 3.6

Relevant coursework: Linear Models, Statistical Models and Data Mining, Design and Analysis of Experiments, Monte Carlo Methods, Statistics in Finance

Experience

Minthril Sep 2026 – Present

Independent Consultant

- Provided part-time, client-facing supply chain consulting services for a large manufacturing company
- Assessed risks of delays and built alert systems for the client
- Streamlined production plans with Microsoft Excel pivot tables, VBA macros, and dashboards, cutting processing time by 90%

Data Detectives Jun 2025 – Aug 2025

Data Analytics Intern

- Built automated Python pipelines to ingest, clean, validate, and standardize housing data from multiple sources, ensuring the data was accurate and analysis-ready for predictive modeling
- Started with a small hand-entered dataset to build and test the validation pipelines before applying them to multiple data sources
- Generated synthetic training datasets using the SDV library and trained a random forest regression model to predict home values from the cleaned dataset

Awe & Reverence Jun 2023 – Aug 2023

Software Apprentice

- Partnered directly with the founder to scope, build, and ship features on tight timelines
- Built full-stack websites using React, MySQL, and other common tools

Rooted Software — Concord, CA (Hybrid) May 2022 – Aug 2022

Information Technology Intern

- Developed mobile applications using React Native for a church with 1,000+ members
- Configured hardware for a private K-8 school with 400+ students

Projects

City of Berkeley Budget Data — Built interactive Tableau dashboards on several years of municipal budget data, making spending easy to browse and compare for non-technical audiences.

NBA Game Simulator — Built a Python pipeline that scrapes, cleans, and structures real NBA player and team stats spanning the last 40 seasons to drive a dice-based basketball simulation, generating play-by-play logs, box scores, and season standings.

Skills

Data & Analysis: Microsoft Excel (Pivot Tables, VBA), SQL, Python, R, Tableau, Data Cleaning & Validation, ETL Pipelines, Supply Chain Process Improvement, Data Visualization, Statistical Analysis
Tools & Collaboration: Git/GitHub, AI Fluency (Copilot), Remote Collaboration, Written & Verbal Communication
