Education

University of California, Los Angeles Sep 2024 – Mar 2026

Bachelor of Science, Statistics & Data Science — GPA 3.6

Relevant coursework: Linear Models, Statistical Models and Data Mining, Design and Analysis of Experiments, Monte Carlo Methods, Causality

Experience

Minthril Sep 2026 – Present

Independent Consultant

- Provided supply chain consulting for a large manufacturing company whose production plans were time-consuming to process
- Built Microsoft Excel pivot tables, VBA macros, and dashboards to streamline the planning workflow
- Cut processing time by 90%

Data Detectives Jun 2025 – Aug 2025

Data Analytics Intern

- Built automated Python pipelines to ingest, clean, validate, and transform multi-source Bay Area housing data for predictive modeling
- Continued the work after the internship, developing a predictive model on 9,000+ homes and 18 features
- Model explains more than 87% of the variance in home prices in select Bay Area cities

Awe & Reverence Jun 2023 – Aug 2023

Software Apprentice

- Built full-stack websites with React and MySQL, partnering directly with the founder to scope and ship features on tight timelines

Rooted Software — Concord, CA (Hybrid) May 2022 – Aug 2022

Information Technology Intern

- Developed React Native mobile apps for a church with 1,000+ members and configured hardware for a K-8 school with 400+ students

Chick-fil-A — Walnut Creek, CA Mar 2022 – Aug 2022

Front of House

- Took and fulfilled orders for 100+ guests per shift while maintaining accuracy and speed during high-volume rush periods

Projects

City of Berkeley Budget Data Tableau

Interactive dashboards on 2012–2015 municipal budget data

- Started with 47,000+ rows of municipal budget data that were hard to browse and compare
- Built interactive Tableau dashboards that organize the data for a general audience
- Condensed the data into 7 simple dashboards that make spending easy to browse and compare

NBA Game Simulator — Built a Python pipeline that collects and processes real NBA player and team stats spanning the last 40 seasons to drive a dice-based basketball simulation, producing play-by-play logs, box scores, and season standings.

Quick Draw — Built a full-stack, database-backed tournament bracket tool with Next.js, TypeScript, and Supabase to organize and run single-elimination, double-elimination, round robin, and swiss format competitions.

Skills

Skills: Python, SQL, R, Microsoft Excel (Pivot Tables, VBA), Tableau, ETL Pipelines, Data Cleaning & Validation, Statistical Analysis, Data Visualization, MySQL, Git/GitHub, AI Fluency
